

OPERATOR INFORMATION FORM

Jet RVSM Services will write your RVSM manual using the information you provide on this form. We will contact you if additional aircraft information is necessary. Once the manual is complete, we will ship two copies to the shipping address indicated below. The RVSM Representative is then responsible for reading and signing the application and submitting it to the FAA. Please note that if you will be operating overseas, you may need an international operations manual.

Please contact us at (877) 538-7876 with any questions.
 Fax completed form to (503) 336-1096 or email to sales@jetrvsm.com

	Nav Unit		
	Comm Unit		
	HF Receiver		

SUPPORTING DOCUMENTATION

Please email supporting documentation to sales@jetrvsm.com and include your company name and aircraft registration number in the subject line of the email. For larger files, please visit www.jetrvsm.com "Contact Us" Page and click on "Upload Files to Jet RVSM Services" to upload files. Examples of supporting documentation: STC documentation, Airplane Flight Manual Supplement, crew training certificates, MEL (if applicable).

AGREEMENT

- Operator understands RVSM approval through the FAA takes approximately 60 days, depending on workload.
- Operator understands that the RVSM Representative designated on this form must be the first point of contact for the FAA. Any technical questions or changes to the RVSM manual requested by the FAA can be directed to Jet RVSM Services, LLC until the LOA is issued.
- By signing this application, you authorize Jet RVSM Services, LLC to prepare RVSM documentation for the aircraft listed above. The charge for this service (including support through the approval process) is \$1,970 and is due prior to shipment of the RVSM manuals. There is an additional \$1,700 charge for the international operations manual.
- Jet RVSM Services, LLC agrees to complete the RVSM application package within five (5) business days of receipt of this completed information form and other required supporting documents pertaining to aircraft systems.
